## 2021: PERFORMANCE, PROACTIVENESS, PLANNING

Rockford Mutual Insurance Company successfully navigated another unpredictable year in 2021. In my 40+ years with the insurance industry, I can honestly say these past two years have been the most challenging. I believe most would agree, we just didn't know what was coming next!

Rockford Mutual celebrated our 125th Anniversary this year, meaning we celebrated all of those who make our company great. Loyal policyholders, dedicated independent agents who represent us, our associates, and our Farm Mutual Partners all play a huge role in the success of our organization.

Without their support and belief in our mission and the core values we operate by, we would be unable to help those who need us most each and every day.

This past year turned out well for Rockford Mutual despite many challenges. We ended 2021 with a policyholder surplus gain of over \$2 million, a combined ratio of 97.3% and an underwriting gain over \$1.5 million. In addition, our loss development and resources continue to be positive. These are all solid indicators of financial strength.

The biggest challenge in 2021 was inflation on loss settlements. Since January 2021, auto repairs are up 31%+ and building repair costs are up roughly 16%+. Also, our vendor contracts continue to increase. We see these trends continuing through 2022 as well. We will overcome this challenge by continuing to invest in the independent agents that support our business here at Rockford Mutual.

We are always working diligently to provide more services and products to both our independent agents and their policyholders. In 2021, we rolled-out our very first mobile application, Rockford Express Mobile. We also rolled out buried utility lines coverage for Homeowners, a Nurse Triage program for Workers' Compensation policyholders, a Commercial Auto Pac and more.

We look forward to all of the opportunities to come for Rockford Mutual. Our organization is financially strong and we are growing more than ever before. These are exciting times, and we are ready for the challenge.

Supply Chain Issues

03

**1 | Higher Building Material Costs, Higher Repair Costs:** Between 2020 and 2021, the cost of building materials rose 11.9%. Lumber rose a staggering 42% over the past year.<sup>1</sup> As a result, home repair costs are up nearly 15% overall.

**2 | Skilled Labor Shortages:** Roughly 60% of builders surveyed<sup>2</sup> report a skilled labor shortage in the home-building industry, which is driving up labor costs involving new construction.

**3 | Supply Chain Issues:** Shortages on microchips and other critical auto parts have impacted the cost to repair or replace a vehicle after an accident. New car prices rose 10.6% between Oct. 2020 and Oct. 2021, while used car prices jumped up nearly 32%.<sup>3</sup>

Rockford Mutual overcame these market challenges by ensuring that properties were being properly evaluated and insured to cost.
